Umbraco Conference
Codegarden 2012
Copenhagen, June 13th-15th

Codegarden is a conference that focuses on everything Umbraco. Everyone from casual users to core developers are invited to learn, participate, share ideas, and get to know each other

Massive value - Similar three day conferences are at least twice the cost and you can even save upto EUR150 if you register before May 13th.

Learn from the pros - The people behind some of the most advanced and ambitious Umbraco implementations in the world will be presenting at Codegarden. Come and learn from their experiences on how to build world class websites... including what not to do.

Biggest one yet - Nearly double the attendees of last years conference plus 3 full days of learning, sharing and networking and an entire track dedicated to hands-on workshops included with your Codegarden ticket.

Ask the experts - The entire development team behind Umbraco CMS will be present and ready for questions, including the founder of Umbraco: Niels Hartvig, and the rest of the Umbraco HQ and Umbraco core team.

Hands on workshop track - This year will be the first time we will dedicate an entire track over the three days so that you can get hands-on experience and advice from the Umbraco core team. This is a unique opportunity to get expert advice to sharpen your skill set, delve deeply into the latest version of Umbraco, and a valuable opportunity to collaborate in person with fellow members of the community.

The topics that matter - Our three tracks are designed to cover: "The future of Umbraco", "What's possible today with Umbraco" and "Sharpening your skill set with hands-on labs". Codegarden explores the topics that matter the most to developers and web-designers.

Networking and socializing - Codegarden is the biggest concentration of Umbraco talent. With 350+ attendees it is the perfect opportunity to network and gain new professional contacts and friends. Codegarden allows the space and program for attendees to learn and share with each other, instead of being just another passive crowd.

Location:	Kedelhallen, Copenhagen, Denmark
Date:	June 13th - 15th 2011
Price:	€600, Early Bird €450 (ends April 1st)

"...if you only attend one event this year and you use Umbraco on a day to day basis, then make Codegarden the one. A great event and great people..."

Adam Shallcross, Managing Director
The CogWorks, Umbraco Gold Partner

"...you instantly feel as part of the Umbraco family, Codegarden is by far the best conference I've been at, and I'll definitely try to attend every year..."

Daniel Frost, DPE
